Almost $200 million research revenue earned annually.

‘Other Income’ one of highest dollar value of U15

No consistency in invoicing, revenue recognition, follow up, and collection

Large number of unknown payments rec’d

External research/finance review recommendation
Desired Outcomes

Expected Benefits

- Ability for faculties and support units to generate invoices from templates
- Customer receives official invoice from McMaster
- Database of customers with tax rules
- Integration of billings with Research Grants module
- Ability to implement reminder letters and consistent policy for follow up
- Improved cash flow/reduced duplicate billings/improved accuracy of billings
Analysis
Estimated current volumes

19.3k
Non research invoices issued each year

1.3k
Research invoices issued each year

$84m
Non research invoices issued

$30m
Research invoices issued each year
Recommendation

Use Mosaic Billing and AR Module fully

- Implement the Billing section of the AR module already in use by all cash receipt users
- Impact to users will be less than purchasing new system
- Benefit from lessons learned at other universities in developing processes and policies
- Provide training for pilot areas, and continuous training as roll out progresses
- Use expert help from Deloitte for integration of modules (Grants/contracts/Non Student Billing and AR)
Plan
For implementation

• Pilot where volume is sufficient and interest is high
• Phase in over time
• Plan to implement with soft go live
• Write and seek approval for university wide ‘Accounts Receivable’ policy
• Take baseline measure and have targets for % invoiced through MacBill for next 3 years
Anticipated Impacts
What will be impacted

- No further customization anticipated
- No Moneris impact
- No integration with external billing systems
- Revenue recognized when billed, no system deferrals
- No netting
- Not to be used for internal billings
- Will be exceptions, approved by Enterprise Administrative Technology Committee
