6. EXECUTIVE DIRECTOR’S GOALS

Minniti presented his goals once more, this time with revisions that incorporated feedback from Marinelli on behalf of the board. This is the third time executive director goals have been discussed by the board (in addition to June 23 and July 27).

Armstrong noted that it is time that the board approve Minniti’s goals as per the most recent draft.

Khan expressed some concern over the goals being approved with Marinelli being absent.

Minniti indicated that Marinelli had seen the revised goals to ensure congruency with the feedback he had received from her, on behalf of the board.

Hayward indicated that it would be beneficial to approve the goals, and have Minniti prepare goals for the 2008 year to be presented at the next board meeting so as to have the approval cycle align with Minniti’s anniversary.

Wong agreed stating that it would give Minniti more time in regards to implementation.

Armstrong agreed that Minniti should start looking at goals for next year so that he actually does have a year to work on them as opposed to mere weeks or months given the board’s delay in approving the goals.

Minniti agreed that he would be able to prepare a document detailing his goals for 2008 that would be presented at the November board meeting.

Armstrong noted that the goals presented were valid, but encouraged board members to provide feedback.

Khan indicated her preference for the goals to be approved by the executive committee on recommendation from the board.

Armstrong expressed concern over further delaying this process and that the board should not penalize Minniti by deferring approval once again, even if it is to the executive committee.

Khan suggested that the board may wish to review each goal, and approve them independently with the percentage Minniti assigned them.

Wong added that the percentage allocated to MAPS-MSU Transferability be increased above 35% to reflect the amount of work done with other campus stakeholders.

McGuire indicated that he did not think this was necessary and was not part of the original feedback given to Minniti via Marinelli.

Armstrong encouraged the board to approve the goals document, as revised, and that the board would be able to discuss whether or not certain goals deserve greater prominence or recognition when the board conducts Minniti’s performance review.
Motion: Moved McGuire, seconded by Khan that the board approve Minniti’s goal document, as revised, and refer it to the Executive Committee. Carried.

7. OTHER BUSINESS

Minniti indicated that the MAPS executive committee approved a wage increase for the current part-time assistants in the office from $8.00 per hour to $10.00 per hour, in order to recognize experience and merit, with the understanding that the hourly wage would return to $8.00 once new employees were hired to fill these positions. Minniti added that the motion at the executive committee was to endorse the pay increase, and have the board approve the increase.

Armstrong noted the executive committee and the board do not need to approve wage increase, and that this is within the purview of the executive director.

McGuire agreed and indicated that this was within Minniti’s scope, that no motion is required, and that an update to the board is sufficient.

8. TIME OF NEXT MEETING / ADJOURNMENT

The executive director will touch base with Marinelli to determine a suitable date for the next board meeting in November.

Motion: Moved by Wong, seconded by Hayward to adjourn. Carried.

The meeting was adjourned at 6:20 p.m.
