

GUIDELINES REGARDING DONATIONS & USE OF THE MUFA LOGO

Because of the wide variety of requests for financial support, the Association has agreed that requests for funds from the Association budget for social, recreational, political and charitable organizations will normally not be funded and permission will normally not be granted for use of the MUFA logo in relation to these activities.

The Association also will not participate directly in appeals for funds from its members and normally only recommends to its members that they participate individually in the annual United Way Campaign and the McMaster Fund.

These guidelines shall be reviewed periodically by the Executive, normally at the first Executive meeting of each year.
